4) The Sanitary Commissioner

No 3358 of 21.12.17

calls for the submission of the statement showing the allotment made to several districts out of the grant of Rs 1,50,000/- for Sanitary Improvement (vide Sl: 1).

3

5) From the Sanitary Commissioner, No. G.C.12738/18 submits for approval, a copy of the resolution of the Central Sanitary Board recommending allotments to districts from out of the grant of Rs 1,50,000 made in the current year's budget for sanitary improvement.

6) Allotments recommended for the districts are as noted below:-

Bangalore District	Rs 15,145/-
Kolar	20,000
Tumkur	5,000
Mysore	6,500
Hassan	17,500
Chikmagalur	23,500
Kannur	59,855
Chitaldurg	2,500

Total 1,50,000

Another 2/3 lines discussion with San. Commr. I shall meet him and ascertain on what principles these proposals are made.

I have submitted San. Commr. yesterday - B

NOTE—Contn. sheet.

Serial
No.

In the current year's State Budget, a provision of Rs. 1,50,000 has been made for Sanitary Improvements. The San' Commr was requested to submit a statement showing the allotments to be made to the various districts. The proposals now received contain the recommendations of the San' Board in the matter. It will be seen from the allotments thus recommended that ^{about} Rs. 70,000 are intended for water supply to m. towns and the balance for sanitary improvements including town extensions.

A sum of Rs. 20,000/- out of this provision has ^{already} been made available for Shimoga Town Improvements.

It is not clear what exactly the San' Dept. are for which this grant should be used. Whether in view of the fact that separate allotments* have been made for improvement of water supply in towns and rural areas, it is necessary to divert this amount to these objects is a matter for consideration. Besides as regards the several ^{water supply} projects* themselves for which funds are proposed, it is to be seen that ^{most} ^{are not} ~~none~~ of them is likely to be taken up before the close of the year.

* Vide para 1 of the Resolution of Jan'y B^d.

(1) The project for water supply to Koppa though sanctioned by Govt. is pending disposal before the m. Council, who have to finance a moiety of the cost.

* Vide 164-13

(2) The Malavalli project is not ready at all.

* Vide 218-15

(3) The Cheemaguri water supply question has been

Serial
No.

advised to be ~~approved~~ dropped and will recommend
to be sunk out of pub. funds. The mltg has & carry
out this work and even if the mltg requires
State aid, it may be given out of the provision under
"30 - Grants for public Improvements - 2 water supply in
Towns".

* Ml 72-17

(4) The question of Kadur^x water supply also is not
ripe for action of Govt. This is pending disposal before
the rel Council.

* Ml 191-16

(5) As regards water supply to the ^{x Holenarasipur} Town, no proposals
have been received from the mltg. The chief Sgr
is not in favour of any costly scheme for the place.
Thus provision of funds for the above schemes even
if justifiable under this particular head, is not
necessary during this year.

* Ml 126-16

9) As regards the 2nd Resolution of the San Bd, it
is to be seen that except in the case of sanctioned
schemes viz, Chickballapur^x water supply and Shimoga
Town Improvements, no programme has been drawn^{up}
nor any estimates prepared for the other items shown
there. It is very doubtful if even any work will be
carried out, even if the allotments are to be made
now. Before any allotments are made to districts
the Dycoms concerned should be asked to have
rough projects ready in all cases where improvements
are urgently needed either for water towns or
rural areas. Till this is done, it is not likely that

Serial
No.

By allotments that may be roughly sanctioned will be utilised.

(10) Resolution 3 of the San' Board contains a useful suggestion which may be favourably considered.

(11) From an examination of the proposals made by the Local Dy. Officers, it is to be observed that the ~~lower~~ allotments are asked for more as grants in aid to the general finances of the M. L. G. with a view to ^{them} being utilised for m. l. works generally and not for specific projects. Whether this is a correct view is also a matter for consideration.

Subd for adms:

MX
8.3.18

Chief Secy

(12) The Budget is put up.

(13) The grant was made without any definite idea as to the class of improvements that may be included, and the class that may not be included for exp. from this head (Vide minute note ~~put up~~).

(14) A detailed and clear scheme has to be called for. As it is not likely that any more money from this source will be expended this year the question of allotment may lie over to a definite ^{scheme} be called for in the meanwhile for being followed next year. Similar provision is proposed in next year's budget also.

Chief Secy

MX
24/3/18

Serial
No.

15) Some general rules should be prescribed for the utilisation of the grant. In the proposals sent up by the Local Bds some districts seem to be more largely favoured than others - there seems to be no underlying principle in the recommendations.

16) The L.B.G. scheme has not yet been introduced fully & we may perhaps wait till it is in full working order before making any grants.

Extraordinary member

2nd member

cbg

23/3/18

17) It seems necessary to define for what kinds of sanitary improvements the grant is generally intended and to frame some rules for the utilization thereof. The Sanitary Commissioner may be asked to frame a set of rules and submit them for the consideration of Government.

18) As regards this year's provision, the Sanitary Board has proposed certain allotments but as pointed out in the Assistant Secretary's note above, most of them are not likely to be made use of as the Local Bodies have not got the schemes ready. If the Presidents of Local Bds had prepared a proper programme of sanitary improvements for each District and got

and Municipal Boards

the necessary details worked up, the result would not have been so unsatisfactory. The Sanitary Commissioner says that under recent orders of Government, every Local Body is required to furnish the Central Sanitary Board with copies of references made to the Engineering Department or to Government in connection with sanitary improvements. Perhaps next year when the Local Self Government scheme comes into operation, better results will be achieved.

19) The grant may be repeated next year.

Sanitary Commissioner in Mysore, Bangalore.

To

The President,

District and Municipal Board

..... District 8.

Sir,

The Government having sanctioned a grant of Rs. 1,50,000 in the current year's budget for grants-in-aid to local bodies on account of Sanitary Improvements, I have the honor to request you to be good enough to favour me with a list of Sanitary Improvements, the various local bodies contemplate effecting immediately or in the near future, the estimated cost, and the details of definite schemes, if any, projected or under preparation, with notes as to how it is proposed to meet the initial outlay as well as the maintenance charges should there be any. As a consolidated statement of the current proposals for the amelioration of the sanitary condition in local areas has to be placed before the Central Sanitary Board, with a view to recommend to Government the allotment of funds based on a consideration of the relative urgency of the schemes from a sanitary point of view, I shall be much obliged if you will kindly arrange to forward the list relating to your District before the 20th September 1917.

I have the honor to be

- + 9. Grants-in-aid - - to Bangalore District Rs. 15,145/-
10. Grants-in-aid - - to Tumkur District. Rs. 5,000/- ✓

Rs.1,50,000/-

3. Resolved further that the question of allotment of funds by the Central Sanitary Board may, in future, be decided at a meeting of the Sanitary Board to be convened at Mysore during the Birth-day week, when the Deputy Commissioners of Districts and selected District Sanitary Officers may be requested to be present.

M. M. M. Ganes
President,

Central Sanitary Board.

(17)

N O T E.

On the subject of the allotments to be made to the several Municipalities towards grants-in-aid out of the sum of Rs.1,50,000 provided in the current year's Budget for Sanitary Improvements the President of the Districts and the Municipal Boards were requested to state the require-ments in their respective districts. Replies have been received from the Mysore, Kadur, Kolar, Shimoga, Hassan and Chitaldrug Districts and will be found in the enclosed file. As it may yet take some time for similar information being received from the remaining two districts and as in the meantime, it is very desirable that the grants-in-aid should be placed at the disposal of the Municipal Councils concerned without delay, the details collected up to date are placed before the Central Sanitary Board for consideration.

2. From the statements it is very difficult to differentiate items of work, a grant-in-aid towards which would be likely to induce the local bodies to take up the work and complete it within the close of the financial year. As the Central Sanitary Board is consulted only at a very late stage (i.e.,) just before a scheme is submitted for the administrative sanction of the Government there are no data available shewing the various sanitary scheme either under contemplation or that have taken any degree of practical shape. Under orders of Government passed recently however, every Local body is required to furnish the Central Sanitary Board with copies of references made to the Engineering Department or to Government in connection with Sanitary Improvements. By this means it is hoped that it will be possible to maintain a progressive record of Sanitary Activities in each district

18

district and to determine what schemes are practicable and are likely to be taken on hand at once, should a moiety of the cost be contributed by the Central Sanitary Board.

3. In the present case, it seems best to base the allotments with reference to the schemes that have come up before the Board since January last and have been approved by them. To these may be added grants-in-aid applied for for improvements, such as, laying out extensions, acquisition of insanitary houses in congested areas and the like. A list made out on this basis would stand as under :-

A.

Already approved by the Board.

(1) Water supply to Koppa town	Rs. 24,711/-
(2) Water supply to Malvalli town	Rs. 9,000/-
(3) Water supply to Channagiri town	Rs. 7,000/-
(4) Water supply to Kadur town	Rs. 35,000/-
(5) Water supply to Hole Narsipur town	Rs. 5,000/-
	(roughly)
	Rs. 80,711/-

Moiety that may be recommended for payment by Government 40,355.

B.

Improvement for which grants-in-aid have been asked for (vide accompanying file) and which may be recommended by the Board :-

- (1) Sanitary Improvements to Krishnarajapet town. Rs. 2,000/-
- (2) Improvement of Water supply of Kolar. Rs. 10,000/-
- (3) Improvement of Water supply to Chickmagalur 1st instalment. Rs. 10,000/-
- (4) Town extensions in the Municipalities of the Kadur District. Rs. 20,000/-
- (5)

19

- (5) Sanitary Improvements for Hassan District. Rs.15,000/-
- (6) Improvement to Chitaldrug town. Rs. 2,500/-
- (7) Grants-in-aid to Shimoga District. Rs.10,000/-
- (8) Grant-in-aid to the Bangalore and Tumkur Districts. Rs.40,145/-

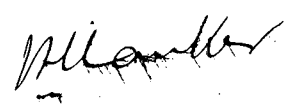

Total Rs. 1,50,000/-

4. If the above is approved by the Board a recommendation for allotments may be submitted to Government.

3	Chennagiri town	Construction of box and "V" shaped drains Filling up a pit opposite to Hindi school. Opening of a Conservancy line Sinking a drinking water well
4	Hannali town	Dismantling the old Fort walls and filling in the ditch so as to have an easy flow of rain water into the river. Construction of rough stone bund to the Eastern side of the fort which is being washed away now on account of the erosion. Demolishing the old houses in the fort and awarding compensation

Bodies contemplate effecting in the Shimoga District
details of Schemes Etc.

The Estimates Notes as to how it is proposed to meet the initial
Cost outlay and the maintenance charges if any Etc.

50,000 - The District Sanitary officer and the District Medical
officer are of opinion that the town can be improved
only by the introduction of drains and the Municipal
Council have unanimously resolved to request
the Sanitary Board to allot at least Rs 3000/-
for working out the Drainage Scheme.

50,000 - As the resources of the Municipality are very slender
to effect these improvements the Municipal Board
have resolved to request the Sanitary Board to
allot the requisite funds, out of Rs 1,50,000/- provided
by Govt for grant-in-aid to Local Bodies.
800
3000
500
4,300

1000 - The Municipal Board have resolved to provide
500 - $\frac{1}{3}$ from the Municipal Funds and the Balance
300 - to be allotted from funds provided by government
1355 - for grant-in-aid
3,155

8000 - The Municipality is too poor to provide
anything. The entire cost is to be allotted
from funds provided by government.
2000 - for grant-in-aid

10000

20,000 -

5 Nyambi town

Swiveling the town in detail
before drainage work is put on hand
Diverting the rush of rain water
coming from the storm water
drain of Hamali Sowlange Road
Construction of box drains
with burnt stones in mortar
to a length of 6750 running feet.

6 Shikarpur town

water supply to the town

For construction of drains

7 Sorab

For filling up the insanitary pits
clearing of land area and rank
Vegetation

For road repairs

3,500

12000

20000

32000

600

100

200

500

1,400

The entire cost to be allotted from funds provided by government for grant-in-aid.

The total cost of the Scheme is Rs. 59000/- . The govt. have sanctioned a grant of Rs. 28000/- towards one half of the initial cost of the Scheme and the Municipal Council has to raise a loan of Rs. 14,500/- at a rate of interest not exceeding 5 percent with guarantee by government, in addition to finding Rs. 16000/- out of the Cash Balances available, for initial cost. The Council have agreed to make arrangements to provide for maintenance charges and now request the Sanitary Board to sanction Rs. 12000/- towards the initial cost from funds provided by govt. for grant-in-aid.

The entire cost to be met from funds provided by government for Sanitary Improvement.

The resources of the Municipality are too slender and the entire amount is to be met from funds allotted by government for Sanitary Improvement of towns.

8	Sagan town	Technical Survey of the town.
		(25)
9	Kallunkatte town	For jungle clearing (clearing land & rank vegetation). Construction of drains & improving the existing ones
10	Thiruthahalli town	To sink three wells and to clear rank vegetation.

Shimoga }
26.9.1917 }

The Amildar reports that before effecting any improvements the technical survey of the town is necessary and arrangement may be made therefor.

5000 - The entire amount is to be sanctioned as a grant-in-aid for Sanitary Improvements, as the finances of the Municipality are too limited to provide for the works.

2000 - The Estimated cost is Rs 4000/- The Municipality will provide half the amount and the other half is to be allotted as grant-in-aid from funds provided by government for Sanitary Improvements.

2000 - -

Letter No. 37 dated 30th August 1917
from the Deputy Commissioner, Hassan Dis-
-trict to the Secretary to the Government
Of His Highness the Maharaja of Mysore,
General Department.

I have the honour to submit herewith an Extract of Resolution of Subject No. IX of the Proceedings of the Committee, Malnad Improvement Scheme, held on 18th August 1917 in the matter of improving the Malnad Towns of Sattlespur and Belur and to state that I inspected Belur Town on 28th July 1917 and found that it is going to decay, as is evidenced by the decrease of population from Census to Census viz from 3862 in 1901 to 2631 in 1911. Belur is a town of Historical importance and is in a semi Malnad area. The provisions of M. I. Scheme may be applied to it, as a special case, as otherwise, the Chief aim of the Scheme will be frustrated, if the town is allowed to go to ruin, whereas the Malnad interior is receiving such liberal treatment. The crippled state of Municipal finance is a valid reason for the interference of Government, to resuscitate the famous town

town, which attracts distinguished visitors from all parts of India and even from outside.

At present, the town is full of dilapidated houses surrounded by huge fort-walls and deep trench, overgrown with noxious vegetation.

It is necessary to dismantle the fort-walls in a few places, fill up the ditch here and there, open out roads and acquire ^{and} dismantle old houses and also lay out an extension.

All this means a huge expense which the Municipality can never afford to pay.

In these circumstances I request that you will be so good as to obtain sanction of Government to grant a contribution of Rs. 3000/- from M. & funds to the Municipality in the first instance."

Statement showing the Sanitary Improvements proposed to be effected in several places in the Chitaldroog District during the year 1917-8

No.	Taluk	Place	Nature of work	Amount of Estimate	Remarks
1	Chitaldroog	Chitaldroog	1. Filling up the ditch round the town by dismantling the fort wall behind the High School and Sanitary	2000	As the financial condition of the Municipality is poor, the estimated cost of the works may be granted by the Sanitary Dept.
2			2. Surveying the town to improve the drainage	500	
2	Davanpe	Davanpe	Drainage Scheme	132,960	The Government and the Municipality may bear the cost in equal proportion.
3	Hariker	Hariker	Removal of prickly pear and filling up ditches	1500	As this is a poor Municipality, the grant of Rs 1500. may be sanctioned from the budget allotment of the Sanitary Department to effect the improvements which are urgently needed.
4	Challakere	Rajanahalli	Filling up ditches	300	The amount may be advanced to be recouped later by the disposal of the improved sites.
		Sarathi	do	300	
		Reddihalli	Sinking drinking water wells one in each of the 3 village as there is not even a well in them	300	The Villagers are very poor and are therefore unable to contribute any portion of the cost in money. The Amildar reports that they contribute labour to the extent of Rs 200 which amount has not been excluded from the account of the estimate of the work.
		Kodihalli		300	
		Gowripura		250

The several schemes referred to in the enclosed statement will be considered in the order of urgency and feasibility as funds become available:

I have the honor to be

Dear Sir,

Your most obedient servant,

W. S. Khan

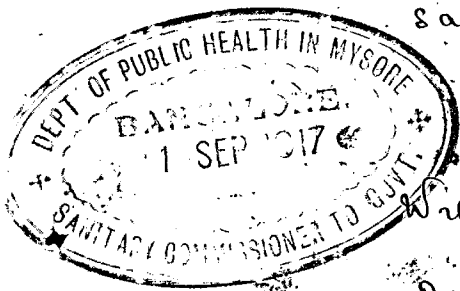

2 President

M. Board

W. S.

Kadur Dutt

Letter No 635 dated 19th February 1917 from the Deputy Commissioner, Kolar District to the Executive Engineer, Sanitary Division.

With reference to the Programme of Sanitary Drainage and water supply works called for by the Chief Engineer in his No. 1707 dated 15th February 1917 (copy received with his memo No 1711 of the same date), I have the honor to request you to depute a competent officer to survey and study the requirements of each town in this District under each head as shown in the enclosed Statement, and to prepare preliminary estimates for each town so that the Municipal Councils may be able to discuss the ways and means and to go up to Government with a definite comprehensive Scheme of Town planning and other municipal improvements. The detailed survey of the towns may be undertaken by employing a number of trained Overseers and Sub Overseers for the purpose. Provision can be made in the Municipal Budgets, if I know the cost of Survey establishment.

2. There is no comprehensive plan available.

35

Drainage or water supply schemes have from time to time, been carried out in several towns of this district under the advice of successive Sanitary experts but they have all proved unsatisfactory patch-works. It is moreover undesirable to carry out works of improvements in small instalments without well-devised scheme for each town prepared after a thorough study of local conditions and requirements.

3. I want such a plan to be carefully prepared as early as practicable. Every town in this district wants a plan of extension with its drainage and water supply schemes. Each should fit in with the other and made to give a comprehensive idea of the scope and cost of the undertaking.

4. I have consulted the members of the several Municipal towns in this district. They are solidly in favor of the proposal to have plans and estimates for each town item of improvement carefully prepared as a step preliminary to the provision of funds to carry out the works. The idea is to make,

the Government for sanction to float a debenture loan on the security of the municipal revenues of all the municipalities combined with the necessary guarantee for repayment of the loan in 30 years. The Government may be willing to contribute half the cost and guarantee interest at 5 or 6% as the case may be to debenture holders.

5. But no action can be taken without plans and estimates.

6. I request you therefore to take early steps to give effect to the proposals above made.

C.

Kadur

Letter No. 4715 dated 5th May 1917. from the
Chief Engineer of Mysore to the Deputy Commr.
Kodur District.

With reference to your letter No. T. 635 dated
the 17th February 1917 to the address of the
Executive Engineer, Sanitation Division, —
expressing the desirability of undertaking
detailed surveys of towns in the Kodur
District in view to preparing comprehensive
schemes for town improvement, drainage,
water supply, &c. for each town, I have the
honor to inform you that, with the available
establishment, surveys have been completed
till now for the following places in the
District: —

- (1) Tarikere — complete in all respects.
- (2) Chickmagalur. — Drainage and water supply
schemes prepared. Town
survey incomplete.
- (3) Koppa and Kodur: — Water supply projects
completed.

2. If, as desired, surveys are to be undertaken
on a large scale for the rest of the towns,

35

it is reported that preliminary schemes could possibly be got ready for all of them in a year if an adequate establishment were to be employed as detailed here under:—

1. Sub. Assistant Engineer	Pay Rs 200 + 50 allowance	
3 Subordinates	Pay Rs 50 + 20 allowance each.	
1 Draftsman	Pay Rs 50	
1 Clerk	Pay Rs 30.	
		540.
3 Lascars	Rs 8 each	Rs 24
2 Pems	Rs 8 each	Rs 16
contingencies		Rs 20
		Rs 600 a month.

3. If you will be so good as to find a sum of—
Rs 7,200 required for the purpose and move the Government to sanction the establishment as now proposed, an endeavour will be made to furnish you with the preliminary schemes required in a year's time.

4. A complete programme of improvement schemes desired may also be furnished, to enable this office to determine whether all of them can be worked out within the period of one year.

— u —

W. F. President
mlpsd

Letter No 835 dated 13th May 1917 from the Deputy Commissioner Kadur District to the Chief Engineer of Mysore.

Adverting to your letter No 4715 dated 5th May regarding the desirability of undertaking detailed surveys of Towns in this District with a view to prepare comprehensive Schemes for town improvement, Drainage Water supply &c for each Town, and suggesting the employment of an adequate establishment to get the preliminary Schemes ready in a year, I have the honor to state that a plan of each Town in this District with details as regards each item of improvement as shown under is required: —

- (a) Drainage line (with detailed sheets separately)
- (b) Water supply system with lines indicating main and branch pipes and places for stand pipes &c (details to be shown in sections in separate sheets).
- (c) Extension plans with details as regards streets, conservancy lanes and drains.
- (d) Plans of insanitary and congested areas

in which acquisition of houses and sites is proposed.

(E) Location and designs of markets and other public buildings.

2. No plans are available for any of the Towns in the District for reference. If the staff proposed to be employed by you will do all the work outlined above, I shall equitably distribute the cost among the several Municipalities in the District and make the funds available for undertaking the survey and planning work.

The favor of an early reply is requested.

A statement showing the requirements of each Town with rough estimates is enclosed for information.

A note on the several items for each Municipality is also appended.

Copy

Respectfully

President

42

CHIKMAGALUR MUNICIPALITY.

Water supply :- Estimates and plans for Rs.1,20,000/- for improving the present unsatisfactory water supply to Chikmagalur have been prepared and they are pending with the Chief Engineer. This provides for a supplemental storage Reservoir Service cistern and the realignment of pipes.

Drainage Scheme:- The whole project is estimated to cost Rs. 82,500/- of which Rs.32,500/- is provided to open out the three congested parts of the town (Petta) by acquiring all the insanitary houses there, which cost Rs.15,000/-. The cost of laying out new roads improving the old ones constructing tunnels and flood water drains in the above localities amounts to Rs. 17,000/- . After this is completed a Sewage Scheme at a cost of Rs.50,000/- has to be taken up as per report drawn up by the Sanitary Engineer.

Town Extension:- As the new Taluk Cutchery is now constructed at Basavanahally there is every probability of sites being taken up in the open ground near it which will accommodate about 300 houses. The cost of reforming this with roads and water tight drains will be Rs.6,000/- .

House building Advances:- Loans at the rate of Rs.500 per house is provided which comes to Rs.1,50,000 for 300 houses to be built by indigent persons of whom there are many.

Other Improvements:- 10,000 Rs is provided for building a Market as per modern design and other necessary improvements required for the Town.

Acquisition of Insanitary Houses:- A provision of Rs 20,000/- is made for the acquisition of Insanitary Houses in congested areas;

Rameshwar
President
M.P.O.
Kadur

TARIKERE MUNICIPALITY.

Water supply:- The project is estimated to cost about Rs. 75,000/-. It is proposed to enlarge the Hananalknakere and thence supply water to the town by means of pipes. The maintenance charges is estimated at Rs.4,000/- per year. The Government have directed that the Sanitary Engineer be instructed to submit a rough project for this work (G.O.No.5550-2 M.L. 281-11-10 dated 24-2-1917)

Drainage Scheme:- The Municipal area is 0.91 sq. miles leaving half of this area for vacant land etc., around the town, the built up area will be .45 sq.miles or 288 acres. As per instructions of the Sanitary Engineer the project costs about Rs.--- 2,88,000/- . This is due to the irregular condition of the streets in this town and the necessity to have outfalls in -- different directions.

Town Extension:- In this town about 100 new houses may spring up if an extension on the high ground on the River Road is formed. For this purpose an area of 10 acres is required as per data furnished by the Sanitary Engineer. Estimate for forming this extension of 10 acres at Rs.500/- per acre excluding compensation is Rs.5,000/-. Compensation of 10 acres at 100 rupees per acre Rs. 1000. Total is Rs.6,000/-.

House building advances:- Rs.50,000/- for 100 houses at Rs500 each to be given only to poor people and made repayable in 10 annual instalments.

Other improvements:- For improving the market stall and opening a park and a Town Hall at Rs.18,000/- is provided.

Acquisition of Insanitary Houses:- A provision of Rs.20,000/- is made for the acquisition of insanitary Houses in congested areas:-

W. S. S. S.
President

te

W. S. S. S.

Kadur

(44)

Kadur Municipality.

Water Supply :- Two alternative estimates one for Rs. 60 through gravitation and the other for Rs. 35,000 through Pumping have been received from the Sanitary Engineer, and ~~are pending opinion of the Municipal Council.~~ *have approved the estimate entering Rs 60,000*

Drainage :- On the basis adopted for Tarikere Municipality a sum of Rs. 50,000 including extension etc. may be required --- roughly. No project is yet set up for this.

Town Extension :- 100 houses may spring up if an extension opposite to Taluk Cutchery is formed. This will cost Rs. 7,000 including compensation. ~~RECOMMENDING~~

House building advances :- Rs. 50,000/- at Rs. 500/- per house is provided.

Other improvements :- Such as market and stalls, slaughter houses etc., may cost about Rs. 5000. The old dilapidated fort wall has to be dismantled and the trench filled up. This may cost about Rs. 15,000/-.

Acquisition of Insanitary Houses :- A provision of Rs. 15,000/- is made for the acquisition of Insanitary Houses in congested areas.

Perumalham
President
M. S. S. S.
Kadur

(45)

SIKUR MUNICIPALITY.

Water supply:- Pumping scheme alone should be adopted if it is decided to sink wells in the valley where the Railway authorities have sunk their well and pump out water by steam engine. In this case the cost of the scheme will be Rs.4853 X10 48,530. Annual maintenance charges for pumping out scheme will be Rs.4,000/-. If gravitation scheme is to be adopted by getting water from Devankere Tank in closed pipes the cost will be Rs.4,353 X7 Rs.35,971 or 35,000. Annual maintenance charges for gravitation scheme will be Rs.1,000/-.

Drainage:- On the basis already worked out for other Municipalities Rs.30,000 may be estimated for this item.

Toom Extension:- An extension just opposite to the Dispensary or on another suitable place may be formed to accommodate 50 houses. For this purpose 15 acres of land may be required and the formation of the extension will cost Rs. 15 X 500 7,500
Compensation for 15 acres at Rs100 Rs... 1,500

Total.... 9,000

House building advances:- Rs25,000 at Rs.500 per each house is provided.

Other Improvements:- Market and other improvements may require Rs.6,000/-.

Acquisition of Insanitary Houses:- A provision of Rs. 10,000 is made for the acquisition of Insanitary Houses in congested areas.

K. P. President
M. P. S.
Kadur

46

Annual maintenance Rs.4,000

Town Extension:- There is necessity for an extension in this Town. This may be formed opposite to D.P.W. and Forest buildings far off from the Mission House. 50 houses may be built if an extension be formed.

To tal 2750

Other improvements:- A market, slaughter house, stalls, and a cart stand may cost Rs.14,000

2 President
Melrods
Kadur

107

Koppa Municipality.

Water Supply:- From Herekere Tank both for upper and Lower Koppa by gravitation cost Rs. 15,000/-

Annual Maintenance charges... Rs. 400.

Preliminary project has been approved by Government in their Order No. 743 - 5 M.L.394 12-9 dated 24th July 1915. Estimates have to be prepared by the D.P.W.

Drainage:- Rs. 15,000 is sufficient considering the nature of the locality.

Town Extension. If Water Supply is afforded, the place between upper and Lower Koppa on both sides of the Road can be formed into an Extension, providing for 50 houses. The land is thickly overgrown with Lantana and mostly Government.

Cost of forming the Extension is Rs.	2,500.
--------------------------------------	--------

Compensation.	250
---------------	-----

	2,750.

The floating population of South Canara are eager to build up houses as soon as water supply is afforded. These will be encouraged to settle down here.

House Building Advances. :- Rs. 25,000 has been provided for 50 houses at Rs. 500 each.

Other Improvements:- Construction of Slaughter House, Mutton Stall etc. is required. This may cost Rs. 5,000/-

Acquisition of Insanitary Houses:- A provision of Rs.10,000/- is made for the acquisition of Insanitary Houses in congested areas.

Ramesh
2 President
M. J. S.
Kadur

48

NARASIMHARAJAPERA MUNICIPALITY.

Water supply:- The cost of pumping scheme will be Rs. $1,855 \times 10 = 18,550$ or 20,000. Annual maintenance will be Rs. 4,000

Drainage:- Rs. 12,000/- may be provided as the area is only .31 Sq.miles.

Town Extension:- 50 houses may be built. 10 acres of land will be required for extension. Cost of forming the extension will be Rs. $10 \times 500 = 5,000$. Compensation for 10 acres = 500.
Total... 5,500.

House building advance Rs 25,000 has been provided for 50 houses at Rs. 500 each.

Other improvements:- For market stall and slaughter house etc ., Rs. 5,000

Acquisition of Insanitary Houses:- A provision of Rs 10,000/- is made for the acquisition of Insanitary Houses in congested areas.

OFFICE OF THE DEPUTY COMMISSIONER,
KOLAR DISTRICT.

Dated Kolar, the 18th September 1917.

From

The Deputy Commissioner,
K o l a r District.

To

The Sanitary Commissioner,
in Mysore, B a n g a l o r e.

Sir,

I have the honor to acknowledge with thanks the receipt of your letter No: C.223 dated 21st August 1917, regarding Sanitary Improvements for which grants-in-aid are required from State Funds, and to state that you are fully aware how the towns in this District are situated with regard to their water supply, drainage, conservancy arrangements, and other sanitary requirements; but the finances of the Municipalities are in the way of these - deficiencies being remedied as early as is desirable. Some schemes will of course have to wait till the Municipal bodies are in a position to meet half the initial cost and bear the maintenance charges and these will be taken up gradually in the order of their urgency and as soon as funds are made available. But there are a few works which in view of their urgency and the inability of the Municipal Councils to finances them, have to be undertaken out of State Funds. I enclose a list of them and what amount is necessary for the current year. If you will kindly support the recommendation and intimate the views of the Central Sanitary Board and the Government in the matter, I shall arrange to get detailed estimates prepared

for the works, after necessary surveys.

I regret that fuller information is not forthcoming now and I have just given here what our immediate requirements are.

I have the honor to be,

Sir,

Your most obedient servant,

Deputy Commissioner,

Kolar District.

No. AC225WB

Office of the Deputy Commissioner,
Mysore District
Mysore, dated 3rd September 1917.

K. Matthan, Esquire, B.A.,

Deputy Commissioner, Mysore District.

To

M. Srinivasa Rao, Esquire, M.A., M.D., etc.,

Sanitary Commissioner with the Government
of Mysore, Bangalore.

Sir,

I have the honor to state that certain Sanitary --- improvements having been suggested by the Deputy Sanitary Commissioner when he visited Krishnarajapet town during the year-1914-15, the Vice President of the Municipality has proposed - the following measures in consultation with the Municipal Board

(a) ~~are~~ Draining the Channappanakatte.

(b) Opening out congested parts by acquiring new sites for the extension of the town, particularly Bestagery, Kurabageri and Vakkaligar street

(c) Shifting the present shandy ground and making it available for building houses and acquiring survey numbers 253-254- for the extension of the town, It is reported that the cost of draining the Chennappana katte is estimated to be Rs.261 and the cost of the lands proposed to be acquired for the extension of the town comes to about Rs.1900, the total area required being 9ac. 19guntas.

The Municipality is a poor one and its ~~low~~ financial condition does not admit of the cost of acquisition being borne by it. There is a small provision of Rs.200 on account of Public Works in the current year's budget of the Municipality and this sum is required for ordinary road repairs &c.

It has been communicated in your letter No.C.223 dated 21st August 1917 that Government has sanctioned a grant of Rs.1,50,000 in the current year's budget for grants-in-aid to

53

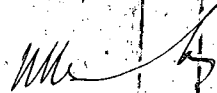

local bodies on account of sanitary improvements.

I have the honor to request that a sum of Rs. 2000 may be sanctioned out of the above grant for the proposed improvements to Krishnarajapet town as they are deemed necessary and the Municipal Board is not in a position to bear the cost.

I have the honor to be

Sir,

Your most obedient servant,

Se Deputy Commissioner,
Mysore District.

Rules to regulate the allotment of funds by the Central Sanitary Board towards improvements of sanitation in towns and villages.

Early in Jan^y each year

(2) The Secretary, Central Sanitary Board, shall (every year) as soon as the State budget is provisionally passed by Government take note of the grant sanctioned for sanitary improvements and frame proposals for allotment ^{of the State grant for the coming year} thereof to various local bodies,

for consideration by the Central Sanitary Board. *with reference to the recommendations of the Board to the Local Bodies of the Province.*

(1) 2. Allotments from out of the sanctioned grant may be made for the following classes of sanitary works:-

- schemes prescribed under G.O. No. 48-217 in the purpose of the rule which will be made after the move of the grant during the preceding three years.*
- (a) provision ^{or protection from contamination} of water supplies in Municipalities, (or protecting them from contamination)
 - (b) drainage systems ^{for} municipalities
 - (c) formation of town extensions
 - (d) construction of model sanitary houses of approved designs in selected areas
 - (e) construction of epidemic diseases hospitals
 - (f) conducting ^{of} scientific malarial surveys and adopting preventive measures ^{against malaria and any other} (based on the results thereof, and)
 - (g) generally, for ~~all~~ sanitary improvements recommended by officers of the Sanitary Department, or where necessary, and approved by the Central Sanitary Board.

Before the 15th of

(3) Early in January each year the Presidents of the District and Municipal Boards will furnish the Sanitary Commissioner with a statement showing in detail the works falling under any of the ^{categories in rule 1} above classes for which provision is proposed to be made in the municipal and district board budgets for the ensuing financial year, with explanatory notes as to the grounds for considering the works to be of an urgent nature. The list shall be in two parts, one showing the works proposed to be carried out by the local bodies themselves and the other those proposed to be entrusted to the State Public Works Department. The statement should also show the amount of grant-in-aid ^{of any} required by the local bodies ^{in respect of each work} to supplement their resources, ~~and~~ in order to be able to carry out the sani-

2.

When a grant is asked for the

sanitary works resolved upon by them. Such applications should invariably be supported by a statement of income of and expenditure in the local area, with full reasons explaining the necessity for the grant-in-aid applied for.

3. On receipt in the Sanitary Commissioner's office, the lists will be scrutinised with reference to the ^{proposals framed} ~~(recommendations)~~ ^{put in}

for sanitary improvements made to the local bodies from time to time as well as to the register of schemes prescribed in Appendix C of Government order No. 5113-63 Sany. 86-13-35 dated the 8th. February 1917. After scrutiny, the lists will be ^{and} placed before the Central Sanitary Board, with a memorandum showing the variations between the works proposed to be budgetted and those ~~listed~~ previously listed in the Sanitary Commissioner's office as requiring attention. In deciding what works should have priority over others, the expectation of a particular work tending to restrict the incidence - as revealed by the recorded health statistics - of epidemic or other preventible diseases should form a most important consideration. The resolution of the Central Sanitary Board as to the approval by them or otherwise of the items proposed by the local bodies, the new items of work considered necessary and the extent of financial help the Board are prepared to ^{recommend} give - will be communicated by the Secretary to the local bodies concerned not later than the 15th. February every year, copies of the resolution being at the same time submitted to Government for information.

4. As soon as the State budget is ^{provisionally} passed by Government, a meeting of the Central Sanitary Board will be convened by the Sanitary Commissioner to consider the allotments that may be made out of the State grant for sanitary improvements. Such meeting may preferably be held during the Birth-day week in Mysore, when the President may invite all or any of the Deputy Commissioners as well as selected District Sanitary Officers to be present, with a view to obtain from them practical suggestions in regard to the details of allotments. The Sanitary Commissioner
